

Declaration of Commitment

SGroup Summer School on Intercultural Studies, Shanghai 2019

I, the undersigned, declare that I have been informed of the following rules required for the participation at the SGroup Summer School on Intercultural Studies in Shanghai 2019:

- A good command of English is required to communicate with other participants and the organizing team.
- Students are expected to attend Chinese classes and cultural activities (workshops, visits to companies, weekend trips), as part of the Summer School programme. However, circumstances might occur that a student can't attend all of them (due to various reasons, such as not feeling well). Nevertheless, if a student misses more than two classes or mandatory activities, he/she will not receive the Summer School certificate of participation.
- If a student misses more than two Chinese classes, he/she will not be able to attend the language examination.
- Being late is considered rude in Chinese culture. Therefore, it is mandatory to be punctual to classes and activities.
- The program of activities is subject to change. The organizing team, on site, shall communicate any change through the appropriate channels.
- The "WeChat" web app is the official communication tool before and during the Summer School, and participants must join the online groups created by the organizing team, as well as respect the intervention rules defined by them.
- Participants must respect all recommendations from the organizing team. If not, SGroup shall not be liable for any subsequent consequences.
- Any lack of respect towards the participants or the organizing team, as well as disobeying the rules mentioned above or in accordance to the Chinese legislation, could lead to the immediate expulsion from the Summer School programme.

Furthermore, I declare that I have understood the main purpose of the SGroup summer school: to provide participants with four weeks of cultural immersion through Chinese lessons, workshops, company visits and trips.
